

No. 13/02 July 2010

Ordinance no. 59/2010 to modify Law no. 571/2003 regarding the Fiscal Code was published in the Official Gazette no. 442/30.06.2010.

Starting with July 1st, individuals owning two or more than two buildings will pay a quota of tax increased as following:

1. by 65% for the first building other than the residence building;
2. by 150% for the second building other than the residence building;
3. by 300% for the third and subsequent buildings other than the residence one.

The tax for motor vehicles increases, applying a higher amount for each 200 cm³. The tax for each 200 cm³ will be: 72 lei for cars with engine size between 2001 and 2600 cm³; 144 lei for cars with engine size between 2601 and 3000 cm³ and 290 lei for cars with engine size larger than 3000 cm³.

For example the tax for a car with an engine of 4500 cm³ will be calculated as following: $4500/200 = 22,5 \Rightarrow 23 \times 290 = 6670$ lei.

The tax increase for both of the mentioned categories will be payable before 31.12.2010.
